PRINCE MADOG

The purpose-built research vessel is commissioned by Bangor University and enables up to 10 scientists and 20 students to study the biology, chemistry, geology and physics of our seas. Our retrofitted CUBE system supplies the hotel load of the vessel that was built in 2001.

Type of vessel	Research vessel
Battery system	CUBE, air-cooled
Battery capacity	225 kWh
Application	Hotel load
Owner	O.S. Energy Ltd.
System integrator	Baumüller
Dimensions	Length 34.9 m, breadth 8.5 m
